To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign his document if there is anything that is unclear.

The nature of the chiropractic adjustment.

The primary treatment used by the doctors of chiropractic is spinal manipulative therapy. The spinal manipulative therapy is performed by using the hands or a mechanical device upon your body in such a way as to improve mobility in your joints. That may cause an audible "POP" or "CLICK" much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis / Examination / Treatment

As part of the analysis, examination and treatment, you are consenting to the following procedures:

- | | | |
|--|---|--|
| <input type="checkbox"/> spinal manipulative therapy | <input type="checkbox"/> palpation | <input type="checkbox"/> vital signs |
| <input type="checkbox"/> range of motion testing | <input type="checkbox"/> orthopedic testing | <input type="checkbox"/> basic neurological testing |

The material risks inherent in chiropractic adjustment.

As with any health care procedure, there are certain complications which may arise during a chiropractic adjustment. Those complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, diaphragmatic paralysis, cervical myelopathy and costovertebral strains and separations. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. I will make every reasonable effort during the examination to screen for contraindications to care, however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me.

The probability of those risks occurring.

Fractures are rare occurrences and generally result from some underlying weakness of the bone which we check for during the taking of your history and during examination and x-ray. Stroke has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur between one in one million and one in five million cervical adjustments. The other complications are also generally described as "rare."

Ancillary Treatments

In addition to spinal manipulation, you will receive supportive treatments which will further assist in the management of your condition. While the risk of complication is low there is the possibility of side effects such as bumps, soreness, skin irritation, etc. Some of the additional treatments which may be provided include ART, hot moist heat, cold laser, decompression, ultrasound, TENS, electrical muscle stimulation, interferential therapy as well as multiple other modalities.

The availability and nature of other treatment options.

Other treatment options for your condition include:

- Self-administered, over-the-counter analgesics and rest.
- Medical care and prescription drugs such as anti-inflammatory, muscle relaxants and pain-medications.
- Injections
- Hospitalization
- Surgery

If you choose to use one of the above noted "other treatment" options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

The risks and dangers attendant to remaining untreated.

Remaining untreated allows the formation of adhesions and reduces mobility which sets up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed. The probability that non-treatment will complicate a later rehabilitation is very high.

**DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE.
PLEASE CHECK THE APPROPRIATE BLOCK AND SIGN BELOW**

I have read [] or have had read to me [] the above explanation of the chiropractic adjustment and related treatment. I have discussed it with the doctor and have had my questions answered to my satisfaction. By signing below I state that I have weighted the risks involved in undergoing treatment and have myself decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give consent to that treatment.

Insurance Coverage

Welcome to Green Oaks Spine & Sport, P.A. Your insurance policy is an agreement between you and your insurer, not between your insurer and this clinic. Like all types of care, coverage for chiropractic services varies from insurer to insurer and plan to plan. Most insurance policies require the beneficiary to pay co-insurance, co-payment and/or a deductible. For example: if you have a deductible of \$100, and your insurance pays 80%, you are responsible for 20% of all charges incurred during the year after you have paid your \$100 at the beginning of the year. Our clinic will call your insurer to verify your benefits, however, we are not responsible for your insurer's final payment and benefit determinations.

Payments

In order to help you determine your responsibility toward payment for services, please read the following, and initial your preference for the method of payment of your account. Please notify this office if the status of your insurance changes.

Health Insurance: (please initial)

C___ I would like this clinic to bill my insurance. I understand I am responsible for the costs of treatment.

Missed Appointments

It is the policy of Green Oaks Spine & Sport, P.A. to assess a **\$55** missed visit fee to patients who cancel appointments with less than a 24-hour notice. One missed visit will not result in the assessment of a fee, but you will be charged for any additional missed visits. This clinic provides care for many individuals and missed visits result in time lost that could have been used to provide care for others.

___ My initials here indicate that I understand the above missed visit policy.

Upon proof of such non-assignment, I instruct my benefit plan (or its administrator) to make out the check to me and mail it directly to Provider.
